NetID: tvo104

Student Responses

Answer the following questions, and be sure to highlight them when you turn them in on Gradescope

Problem 1

For part (1), below answer why the program does not work when you comment out the line `BL copy_vector`:

Removing `BL copy_vector` would not allow the program to not know how to deal with interrupts

For part (2), below answer why moving the vector table to the beginning of the `start.s` file still works after recompiling:

Moving the vector table still works because there is still a valid vector table regardless of where you place it
